Buggy Business.

I am also carrying on the Buggy and Wagon Making Business and will be glad to receive the patronage of my friends. The work shall be well done, and the charges very low. I have some finished work now on hand, which I will sell at extremely low figures.

D. CREECH.

Webbville, April 27, 1869 2m

Caution!

WE desire to warn the dealers in, and consumers of SNUFF generally, that since the war certain tobacco manufacturers, being unable to find a market for their snuffs, felt themselves obliged to counterfeit the general appearance of our packages, and imitate our Trade Marks so that a close inspection is necessary to detect the spurious article from the genuine, and others being afraid to assert that 'Lorillard's Snuff is no longer made.'

In making this publication we desire to warn the public against the impositions practiced upon them: as they are the losers thereby. It will be found on comparison that Lorillard's Snuffs "far ahead" of all others, being made of the best stock after an original and peculiar process known only to ourselves, besides possessing great strength and pungency, and is warranted not to contain any dangerous or deleterious substances, which cannot be said of the many worthless articles put on sale by others. The best is the cheapest in the end. A circular will always be mailed on application. In ordering please specify if Salt Snuff (High Toast), or Fresh Stock (Extra Scotch) is desired.

P. LORILLARD, New York.

GOLDSBORO' NEWS.

VOLUME VII. GOLDSBORO', N. C., WEDNESDAY, JULY 7, 1869. NUMBER 8.

THE

ECONOMY BUTTER CO.,

ask the attention of all interested in the reduction of the extravagant cost to Butter, to their practical and economical system of making pure prime Butter by the aid of the

Extract Butter Plant

A brief allusion to the origin of this important discovery may not prove uninteresting among the authenticated records of the renowned Captain Cook's voyage around the world, is found the statement, that while sojourning for a short time on the Brazilian Coast of South America, he observed the natives using in the preparation of their food a peculiar oil, which, upon examination, he found to possess the appearance, taste and flavor of Butter; upon further inquiry, however, he ascertained that it was simply a substance that the natives distilled in a crude and imperfect manner, from a rich and luxuriant plant that grew spontaneously and abundantly in that warm tropical country — A few years ago, an eminent French chemist, while on a professional visit to the tropics, made numerous experiments with this remarkable production of nature, and succeeded in extracting a concentrated essence of the plant. The formula for its preparation, and the Sole Right for its use in this country are the exclusive property of this Company, by whom it was purchased from the original discoverer. We claim for this remarkable, yet simple and perfectly harmless preparation—

1st.—That by its use a net gain of from 50 to 200 per cent is made in the manufacture of Butter.

2d.—That Butter, which from age or whatever cause may be strong, rancid, streaked or coarse-grained, and comparatively useless for general use, by the aid of this Extract is restored to its original freshness and sweetness, fine-grain, and even color.

3d.—By the use of this Extract, one pound of delicious, fresh Butter is actually made from one pint of milk.

4th.—That a pure and excellent table Butter can be made at a cost of from 15 to 20 cents per pound. The chief expense where in being Butter, which is the essential *base*.

5th.—That Butter manufactured by the aid of this Extract, is equal in every respect to the best Butter made by the ordinary method.

6th.—The Extract after thorough analysis, by able chemists, is pronounced perfectly free from any deleterious substance, the ingredients being purely of a vegetable nature.

7th.—In proof of the foregoing assertions, the factory of this company is making one ton of Butter per day, which meets with ready sale in the New York Market, and is consumed from the tables of the first Hotels, Restaurants and Private families in this city and elsewhere.

A sample package of the EXTRACT (sufficient to make fifty lbs of Butter,) with full directions for use, will be sent to any address on the receipt of $1.

CAUTION — As all articles of real merit are subject to spurious imitations, we would specially caution the public against counterfeits and worthless imitations, advertised as powders, compounds, &c., as the Extract of the Butter Plant is prepared and sold only by

The Economy Butter Co.

OFFICE, 115 LIBERTY STREET,

FACTORY, 736 GREENWICH STREET, NEW YORK

State, County and City Rights for sale, offering to capitalists rare opportunities for establishing a staple business, paying *enormous* profits.

Agents wanted everywhere.

M. CADARTS *Pure Vegetable Coloring*, a pound, sufficient to give a rich golden yellow sample package, White Butter; 5 cents per sample package. Every Butter should be without it, as where used a trial Butter is worth from six to ten cents a pound less in all markets than that of a rich yellow.

Purifies the Blood.

For Sale by Druggists Everywhere.

St. Cloud Hotel.

THIS new and commodious house, located corner of Broadway and 42d Street, possesses advantages over all other houses for the accommodation of its guests. It was built expressly for a first class Family Boarding House—the rooms being large and en suit, heated by steam—with hot and cold water, and furnished second to none; while the culinary department is in the most experienced hands.

One of Atwood's Patent Elevators is also among the 'modern improvements" and at the service of guests at all hours.

The Broadway and University Place Cars pass the door every four minutes, running from the City Hall to Central Park, while the Sixth and Seventh Avenue Lines are but a short block on either side, affording ample facilities for communicating with all the Depots, Steamboat Landings, places of Amusement and Business of the great metropolis.

MODE OF DRAWING.

All of the above is put in the drawing at the regular cash selling prices and will be disposed of by a regular mode of drawing, and in order to accomplish this, the Company will sell 73,347 tickets at $2 each.

The drawing will take place in TUCKER HALL, in the City of Raleigh, immediately after sale of tickets,—of which due notice will be given, at least one week before the day of drawing.

The Company is working under the provisions of a special Charter granted by the General Assembly of North Carolina, which compels the Company to comply faithfully with all contracts.

Copies can be had on application to the Co. Money may be disposed of as above stated, and those drawing it will be invested with the title in fee simple.

☞ No member of the Company is allowed to purchase any tickets.

All moneys sent by mail, at the owners risk; that sent by Express, Registered Letters, Checks or Drafts at the risk of the Co.

No property will be listed unless the title is indisputable.

The Treasurer has been required to give a bond of five thousand dollars for the faithful performance of his duties. He is required to deposite, daily, in the bank, all monies received, where it will remain until the tickets are sold and all the property will be positively drawn and delivered to the parties drawing, or the money returned. Send two dollars by Express, Post Office Order, Registered Letter or Draft, at our risk, or by mail at your own, and take a chance at the 3,000 valuable prizes offered.

Tickets will be sent anywhere in the United States at the Company's risk upon receipt of $2 and postage stamp.

The plan of drawing shall be as follows. there shall be two wheels, one a prize wheel and one a number wheel, arranged in some public place in the city, where the ticket holder may witness the drawing if he desires — In the number wheel there shall be 73,347 tickets corresponding in number to those which have been sold. In the prize wheel there shall be deposited by the Board of Supervisors, appointed by the Directors, 3 000 tickets, designating the prizes to be drawn, after which the wheel shall be sealed up and placed in the bank in this city, until the time of drawing, when the Supervisors shall bring them to the place of drawing, break the seals and the drawing shall be disposed of by taking a ticket from each wheel at the same time, and the prize ticket taken from the prize wheel shall designate the prize drawn by the ticket corresponding in number to the one taken from the wheel at the same time — The wheel shall be well shaken after each ticket is drawn.

The Supervisors will be gentlemen well known and noted for honesty and integrity, who will not be allowed to purchase tickets or own any stock in the Company. The numbers and prizes will be drawn from each wheel by two blind boys, and a full report of all numbers drawing prizes will be published in some prominent newspaper immediately after the drawing. Persons at a distance drawing prizes, may have them sent to any part of the United States they may desire.

Description of Real Estate.

SEVEN FINE RESIDENCES—FOUR IN THE CITY OF RALEIGH

One in Warrenton, Warren county, N. C.

One Hotel in Taylorsville, county seat of Alexander county, N. C.

One lot containing 8 acres in Raleigh, about three fourths of a mile from the Capitol; about 2 acres in forest oak and hickory, house fronting on the street and about 50 feet back; walks to the house 15 feet wide, planted on either side with Emoisimus for hedge, with a marble statute of the goddess Flora on the one side—full size—a fine piece of sculpture, said to have cost $1,500. On the other side, Sun Dial on marble column, both on marble predestals. Front pailings on the street, resting on hewed granite gate posts. The grounds in the grove are highly fertilized and well set with clover and orchard grass. The remaining six acres highly fertilized, producing, last year, besides much hay and vegetables, 4 bales of cotton.

The dwelling of brick, is 42x35 with conical metal roof, and two Franklin rods. In the basement is the kitchen, about 20 feet square and the dining room, 18x32 feet, and two pantries well fitted up. On the middle floor there are two large rooms, with fire places, and fine variegated marble mantles and a spacious hall and open room for enjoying the summer breezes. In the third story are two large and one small dormitory all with fire places, and a large passage with cases for wardrobe. In the attic story is a small dormitory, with stairs to scuttle in the roof.

There is a portico to the house 3x14 feet, with floor of hewed granite slabs. The steps of the building, in front and rear, are of hewed granite, with iron banisters, and all the door and window sills are of hewed granite, and all the sash hang on balances. The wood work of the building are of the choicest material, and the entire building recently painted.

The out houses consist of a barn 40x20 feet with basement walled with granite, large enough for 12 horses or cows with shed in front and on the two ends, one end fitted up for four milch cows; a horse stable 14x18 feet; a carriage house 18x24 feet; a house or servants 18x37 feet, well finished, with two fire places, and recently painted, and has a good dry cellar; a brick smoke house 20x20 feet, of very high pitch shedded all round with wood, gear, and chicken house, under the shed; and a spacious ice house, walled with granite.

Through the grove passes a branch, with never-failing spring of pure cool water.—Immediately below this is a granite milk house, the water of the spring, which is very abundant, passes in a stone milk trough through the milk house, and discharges in a crystal fish pond, some 15x180 feet, in which is a large variety of fish, many of them so tame that they eat from fingers. Price $10,000.

One large and convenient house in the City of Raleigh, on New Berne street, thirteen large rooms, double parlors, with all necessary out buildings, 1½ acres of ground, and a beautiful oak grove. Value, $6 500.

One large house on Newbern and Bloodworth streets, containing twenty rooms, suitable for a boarding house, all necessary outbuildings, with a beautiful oak grove in the yard and 2 acre of ground. Value, $5 000.

One beautiful large residence, on Newbern street, eight rooms and basement, four out buildings and stable, seven acres of ground, elm, grove, very desirable and attractive.—Value, $8,000.

One in Warrenton, N. C., known as the Alston property, in perfect order, one of the best built houses in the State, containing 8 large rooms, double piazzas and portices, one of the most commanding and beautiful residences in the place, with 8 acres of ground, one orchard, beautiful oak grove in the yard, and all necessary out buildings. Value, $5,000.

The property at Taylorsville is very attractive, valuable and cheap. It is a Hotel at the county seat of a flourishing and growing village of a thousand or more inhabitants, and situated one square from a good and flourishing College, no school of better grade right on the line of the Atlantic & Ohio Rail Road, and being situated in the mountain region, the scenery is truly delightful and fascinating. Contains twenty rooms, and the buildings are new. Value, $2,000.

One in Chapel Hill, containing four rooms, with fire places, and one forty feet dining room. Also, kitchen, out houses and one and three-fourths acres of land. Value, $2,000.

Those ordering tickets can select any number from 1 to 73,357, if the number ordered has been taken, the number nearest will be sent. One three cent stamp must accompany every order. All tickets will have the seal of the Company and signature of the Secretary.

Persons living at a distance will be furnished with an official list of the drawing.

We refer to any Merchant, Banker or other Gentleman of standing in the city of Raleigh.

For further descriptions and particulars, address

JOHN C. HESTER, Sec'y.,

Raleigh, N. C.

P. S. Real estate wanted for the 2nd Drawing. Persons desiring to dispose of Real Estate through this Company will be required to send us a description, and a certificate of title, &c. Desirable property will be taken in any part of the United States, for the second Drawing. Preference will be given to persons who purchase the largest number of Tickets in the present Drawing.

Few York Fashions.

NEW YORK, JULY, 1869.

Summer has set in with its usual severity, and as usual, the butterflies of fashion have betaken themselves to the seaside and mountain tops—and taken with them *such* quantities of clothing and it all so new and beautiful and stylish. Organdy muslin and Swiss embroidered muslin for morning wear, and silk grenadine for evening, and the most jaunty of white pique jackets for cool days, and muslin hats and hoods—think of hoods and hats of white muslin—and very charming fresh young faces look in these same hats and hoods when lined with rose-colored muslin, and tied with rose-colored strings, edged with button-hole stitch in white floss. The shape most approved for the hat in muslin is that known as the garden shape, small crown, large brim. The muslin hood is Nubia shape; a shape as indefinable because as indefinite as a shape can well be—the lining is generally turned over in front, thus forming a pretty *revers*, and if of a becoming color to the complexion, brightens up a bright face admirably. In the same line but much prettier than muslin hat or hood, is the white Cashmere summer bonnet. This charming fancy is of English origin and deserves to be considered an indespensable appointment of the wardrobe of every lady who spends her summers or any part of them in the country.—It is as simple as it is elegant being first a round piece of cashmere large enough to cover the head well—that is to droop a little on the forehead and fall as low behind as the nape of the neck; another piece somewhat smaller, cut butterfly-shaped, is laid over this, and from under the wings fall two bands of cashmere for strings. All the edges on every part of the hood are scolloped and worked in button-hole stitch with white needle work silk.

White is very much worn this summer. Morning, evening and visiting dresses are made in the various white material suitable for each. We have seen at the Metropolitan Furnishing Rooms an elegant morning dress in white cashmere made *en Watteau*; that is with a pleat falling from the back of the neck to the train—it is delicately embroidered in fern leaves with gold colored silk; the leaves are in clusters on the corners of the front, but are continued singly and sparingly up the points. This is embroidered on the Grover & Baker maching and worn over a white silk petticoat, embroidered in the same pattern, but in white silk, instead of gold colored silk thread. The petticoat may be of white muslin if very fine, and rendered sufficiently expensive by excess of ruffling, tucking, puffing and embroidering—I say *excess*, because so much ornateness is required, that it approximate every much nearer an excess than the mere sufficiency. Since ladies have discovered the merits of this machine in doing embroidery tucking, rufflings, and puffing, as well as all kinds of bias and plain sewing, they have fairly revelled in dry goods made up in the showiest manner imaginable—a child now-a-days goes with more stitches on its little pinafore than its grandmother had in a whole suit of clothes, and prettier stitches too than she put on her ruffled Sunday cap, even though she was the neatest sewer of all the country round. But then there is no end to what people will do for their children. A visit to any of the city Parks where children are out with their nurses for an airing will gratify any one in quest of ideas. We notice among the most aristocratic children a gradual return to old shapes, especially to the ever interesting corsage known as the "Infant Waist." It looks infinitely better than tight fitting, paniershumped or gored dresses. The late style seems to be left almost entirely to small boys who have not yet arrived at the dignity of Knickerbockers. Before a small boy is indulged with Knickerbockers, he wears drawers just reaching to the knee and edged with needle worked ruffles. The boots for boys remain high—the Polish shape—but for little girls and young ladies the Marie Antoinette is the most admired; it is as yet very new and is even regarded by some as an innovation—"not quite decent." Why? Because it does not cover the ankle. Yet those same ladies wear the Pompadour waist, which is cut very low upon the bosom—wear it on the street too, with only the thinnest little bit of a lace chemisette—and that no higher than it ought to be. Since the Empress Eugenie has returned from Jerusalem, burnous have taken the place in Paris of all other outside wraps, and that "innovation" has just been introduced here—whether it will "take" here or not will be decided before my next letter.

A MAD HORSE—ANOTHER PHASE OF HYDROPHOBIA.—The West Chester (Pa.) *Republican* of Monday says:

"On Saturday last a horse owned by Sewell Chambers, a colored man, living in Thornbury township, was seized with hydrophobia. The animal had been confined in a field near Darlington's corner, but by some means got out of the enclosure into the public road. It attacked a team belonging to William Farrell, who was engaged in hauling stone to the railroad. The driver of the team succeeded in driving off the mad animal, and it is not believed that it injured any of the horses attached to the team. When the hit was off the poor brute would become very weak, stagger, and fall. When the spasms returned it would again rise, and attack everything in its road. Several persons were chased on to the tavern porch, one individual narrowly escaped being bitten. In its rage to bite its own tongue was nearly bitten off. The animal was finally secured in a lot, where it died during the night in great agony. It was a valuable horse and was used by Mr. Chambers in threshing grain, with a machine, through the neighborhood. What is still more terrible to contemplate is the fact that this horse is supposed to have been bitten by a dog belonging to Mr. Elias Baker, that was thought to be mad, and bit two persons some three weeks since—an account of which was published in this paper. This supposition is strengthened by the fact that Mr. Baker's dog bit two other dogs on the farm of Mr. George Faucett, where the horse was kept.—The dogs of Mr. Faucett were killed immediately after. The two young men who were bitten, as well as their immediate friends, are much distressed over these facts; but it is hoped that the means resorted to in their cases will prove effectual against the malady.

AN epicure once asserted that two were required to make a meal of a chicken—himself and the chicken.

H. L. GRANT, P. M.

Mrs. E. A. Pollard in Court---She is Sent to Jail---A Scene.

From the Baltimore Sun, 29th.

It will be remembered that on the 28th of January, 1868, Mrs. Maria N. Pollard, wife of E. A. Pollard, was arrested in this city on the charge of shooting with intent to kill Dr. George A. Moore, a druggist, doing business on the corner of Hanover and Hill streets. After remaining in jail for some days, she was discharged on her own recognizance to appear when wanted. In the mean time the grand jury found an indictment against the lady for common assault. The case has been postponed from term to term, and the community seemed to have lost sight of it entirely; but it having been set for trial yesterday, Mrs. Pollard, who has been sojourning in Washington, was notified of the fact, and on the opening of the criminal court yesterday morning she made her appearance, accompanied by a male friend.

The lady was richly habited in a thin dress of dark material, cut very low at the neck, so as to exhibit to the best advantage an unusually well-developed bust, but her face was so thickly veiled that very few knew her in the densely-crowded court room even after she had taken a seat in the witness-box, although many curious eyes were turned towards the spot in which she sat. When, however, the case of Moore *vs.* Pollard was called, Mrs. Pollard, accompanied by John Wills, Esq., left the witness-box and took a seat among the lawyers, and she at once became the great object of attention, as much on account of the previous notoriety of her case as for the present style of dress assumed by her on this occasion. As the lady was without counsel, Mr. Wills so informed the court, and Judge Gilmor directed him to conduct the defence.

The case was put upon trial before the court, a jury being waived. Dr. George A. Moore and his two assistants then gave their evidence. The physicians who attended Dr. Moore followed, and testified as to the extent of the wound inflicted by the pistol ball, which passed through Dr. Moore's wrist, doing injury to the muscles that will last through life.

Mr. Wills cross-questioned the witnesses, and then, by permission of the court, took the stand and detailed his former professional connection with Mrs. Pollard, giving it as his deliberate judgment that at the time of the commission of the alleged assault the accused was not of sound mind.

The counsel for the prisoner then asked Judge Gilmor if he would listen to a statement from the accused, which request the Judge said he would grant only provided Mr. Knott, the State's attorney, and Mr. Milton Whitney, counsel for Dr. Moore, did not object. These gentlemen having signified their willingness, Mrs. Pollard was led to the witness-stand by Mr. Wills, and after removing the thick green veil that enveloped her face she proceeded to detail to the court the history of the wrongs she claimed to have received at the hands of E. A. Pollard, led on and encouraged, as she alleged, by Dr. Moore. She concluded a rather lengthy story by stating that inch by inch she had been deprived by these men of all she possessed except her honor, and that could only be taken with her life.—She also stated that she bore no relationship whatever to Mr. Pollard, his treatment of her having been of such a character as to compel her to apply for a divorce, which was now pending. She did not deny the assault charged, but claimed that Dr. Moore had denied having had any knowledge of the whereabouts of Pollard, that he had told her he had not seen him for months, although she had seen him enter and depart from Moore's house only the night previous, and his constant interference between her husband and herself had driven her to frenzy. Judge Gilmor then reviewed the case, and finally concluded by declaring the witness guilty of common assault, as charged in the indictment, and sentenced her to be confined in jail for thirty days.

Upon this announcement a scene followed not often witnessed in a court of justice. Mrs. Pollard rose with outstretched hands and in a frenzied manner cried out, "Oh, Judge do not send me to prison." She then fell on her knees, and again appealed to the Judge, saying, "For the sake of my more than orphaned children do not deprive them of the protection of a mother." She then sank with her head on the knees of Mr. Wills, her counsel, uttering hysterical sobs, until Messrs. Irvin and Carter, deputy wardens of the jail, appeared, and as delicately as possible removed her to the office of the clerk of the court, Mrs. Pollard went on with her excited outcries in the clerk's office, and succeeded in attracting a considerable crowd. When the court adjourned she was conveyed to jail, where she now remains.

Meeting in Lenoir.

MESSRS. EDITORS:—A large and respectable portion of the citizens of Lenoir county assembled at Mosely Hall on Wednesdry, the 30th of June, for the purpose of expressing their views on the condition of the country, and especially on the condition of the county of Lenoir.

The meeting was organized by calling Council Wooten to act as Chairman, and F. A. Brothers as Secretary.

On motion of J. C. Wooten the Chairman appointed a committee of ten to draw up resolutions expressive of the sense of the meeting.

The Chairman appointed John C. Wooten, I. J. Kennedy, J. H. Dibble, R. L. Wooten, J. C. Kennedy, J. M. Patrick, D. A. Murphy, Noah Rouse, John King, and J. M. Hines.

The committee reported the following preamable and resolutions, which were unanimously adopted:

WHEREAS A meeting has been called on this, the 30th day of June, A. D., 1869, at Mosely Hall, in the county of Lenoir, at the instance of a large number of the best citizens thereof, for the purpose of taking into consideration the present disturbed and unhappy condition of this, and adjoining counties, arising from an apparent organized system of stealing, robbery, and murder to such an extent that neither the property or the life of the good citizens are safe—and, in our opinion, it becomes every good citizen to discountenance, deprecate, and put down these crimes and crying evils, so inimicable to the peace and good order of society, therefore,

Resolved, That in our opinion the only safe way of successfully putting down these crimes is by a strict enforcement of the civil and criminal law, without respect to persons, parties or color; and to this end it becomes every law-abiding citizen to give his personal aid and assistance in this behalf.

Resolved, That in our opinion the good order, peace, and welfare of society depends upon an impartial and strict administration of the criminal law of the land.

Resolved, That we are thoroughly persuaded that great injustice has been done to a large number of our best and truest citizens by false representations and reports of dishonest and mercenary detectives, who reported them as disloyal and encouraging crime.

Resolved, That we are opposed to the high crime and wanton violation of the Constitution and laws of the State, by those officers of counties, who have made illegal arrests of citizens of this county without authority or precept of law, and imprisoned them in the jails of adjoining counties.

The meeting was addressed by Jno. F. Wooten.

On motion, the proceedings of this meeting were ordered to be sent to the JOURNAL OF COMMERCE for pulication, with a request that the papers of the State copy them.

On motion, the meeting adjourned.

C. WOOTEN, Chairman,

F. A. BROTHERS, Secretary.

SHOCKING DISASTER IN RICHMOND.—Friday last, at 3 o'clock, Richmond was the scene of a most horrible disaster, resulting in the death of several valuable lives. From our Virginia exchanges we gather the following particulars:

While the Conservative Colored Men's Barbecue was in progress this evening, the Suspension Bridge connecting Brown's and Vauxhall's Islands gave way, precipitating into the river below, where the water is rapid, and rocks near the surface, some forty or more persons.

Col. James R. Branch, son of Mr. Thos. Branch, and candidate for the State Senate, was killed; also Policeman Kirkham.

A dozen others were wounded, more or less dangerously.

The place where the accident occurred is a little island about fifty yards west of Vauxhall's island and connected with it by a wooden suspension bridge. It was half-past three o'clock and the crowd had just begun their recreations. All those who had tickets had passed over to the barbecue, but there was quite a crowd at the Vauxhall end of the bridge who desired to go over, but were unprovided with tickets. Col. Branch and Abram Hall, colored, came half way across the bridge and directed the policeman, who was keeping the crowd back, to let all come, at this the crowd rushed forward and the frail bridge parted about midway, precipitating all into the river, fifteen feet below. Col. Branch fell into shallow water, but was struck upon the head by falling timbers, and he scarcely breathed after he was extricated. Policeman Kirkham shared the same fate.

The wounded are Robert Ashley, mortally in the head; Henderson Morriss, mortally in the spine;—Shepherd, severely internally; Winchester Belvin, slightly in the leg; Robert Lotzey, finger cut off; Andrew Rutherglen, bruised: Abram Hall, colored, arm broken; John Clark, colored, neck severely injured.

The awful accident has cast a gloom over our entire community.

North Carolina Rail Road.

We have before us a copy of the reports of the President, Superintendent and Secretary of the North Carolina Rail Road for the fiscal year, ending May 31st, 1869. From these reports it appears that the receipts from all sources were $658,117.42.—Total expenses of operating the road, $261,233,09. Leaving as net profits ever operating expenses $396,884.33. This shows an increase of profit over last year of $80,245.52.

"The debt of the Company, as shown in the financial statement, is $677,859.09. Considering the assets on hand of $110,522,93 as applied to this debt, we have the sum of $567.-336.11, and from this take the probable deduction of $53,656.39 which will be on the negro bonds given in 1864 and 1865, and it will leave a debt of $533.679,62."

The road itself has been greatly improved. One new engine has been built, one engine rebuilt, and a large and valuable increase made to the number of cars. All this is done at the shops of the Company, and thus a handsome saving is made.

A connecting link between this road and the Columbia and Augusta road has been built during the year, with the aid of $100.000 bonds purchased by the North Carolina Rail Road. The Columbia and Augusta road has made arrangements to run cars into Augusta, and a handsome freight is now passing over the North Carolina road from Augusta and beyond, and it is thought this combination will be able to compete successfully for freight from Atlanta and the through travel to New Orleans.—When this takes place, as it must, it will make the road a paying institution.

The directors can make these returns to the stockholders, at the meeting to be held at Salisbury, on the 8th instant, with pride and satisfaction. Just before they assumed the management of the road the stocks of the company sold at pubic sale at $15 per share, and there were few takers. Now the stock is eagerly sought at $25 a share and the present prospects are so promising that the stocks are rapidly advancing. This comes from the control of *practical* men, in place of the theorizers who talked the time away and did nothing for the improvement of the road. The Milton *Chronicle*, *Old North State* and Charlotte *Democrat* and *Observer* have done justice to Wm. A. Smith, the President of the road, by giving him credit for the improved condition of affairs, and we believe his re-election is the best thing that the stockholders can do for their private interests.—*Standard.*

BINGHAM SCHOOL.—We have already announced that this school will commence its fall session the 25th of [illegible] tice thereof from the Charlotte *Times*:

"We consider this the best school in the country, because the system pursued unfolds and develops all the faculties of the mind and body, and sends the pupil out with a proper conception of his responsibility to the State, to God, to society, and to himself. There is no teaching by rote here, but "thorough" is the principle the object, and the end. The student is not crammed to enable him to make a show of learning, but is taught to love knowledge for the influence it has upon his character and tone of thought. Hence he is almost invariably a gentleman of taste and refinement, as well as of scholarship."

HYDROPHOBIA.—A wash of chloride of zinc is secommended by the *Eclectic Magazine* as an infallible remedy for hydrophobia. Inject the solution into the wound, as promptly as possible. Repeat the treatment on the day following. With this, carbonate of ammonia is to be taken internally. Ten grains to a half pint of water is a daily dose for twenty days. The zinc is said to be a sure antidote to the virus.

Take ten ears of green corn, cut off the corn, take one quart of sweet milk, three eggs, tablespoonful of sugar and one of flour, teaspoonful of salt; mix all well together and bake two hours. Butter and sugar sauce.

The "Maid of Judah" is announced from Melbourne with 3.200 ounces of gold. Brown says that's the girl for him.

Why does a novelist with his manuscript in his coat pocket resemble a lion? Because he carries his tail behind him.

"I really can't express my thanks," as the boy said to the schoolmaster, when he gave him a thrashing.

Why is fashionable society like a warming pan? Because it is very highly polished but very hollow.

There is little difference between a pinch and a punch; it consists of the difference only between *u* and *i*.

An aged bachelor being asked if he ever witnessed a public execution, replied, "No, but I once saw a marriage.

Why is a young lady just from boarding school like a building committee? Because she is ready to receive proposals.

☞ In a tornado and hurricane, near Atchison Ks., on Tuesday, a house was blown to atoms, and four of the occupants were badly injured.

WILMINGTON MARKET.

WILMINGTON July 3.

Rosin $2 25.

SPECIAL NOTICES.

DUTCHER'S LIGHTNING FLY-KILLER! Death to the Living! Long live the Killers! *Sold by Dealers Everywhere!*

PERRY DAVIS' PAIN KILLER

Has become an article of commerce,—which no medicine ever became before. It is as much an item in every bill of goods sent to country merchants as tea, coffee or sugar.—This speaks volumes in its favor.—*Glens' Falls Messenger.*

Rev. H. L. Van Meter, Burmah, writes, "The Pain Killer has become an almost indispensable article in my family."

Hundreds of missionaries give similar testimony of its virtues.

Rev. J. G. Stearns writes, "I consider it the best remedy for Dyspepsia I ever knew."

Rev. Jabez S. Swan says, "I have used it for years in my family, and consider it an invaluable remedy."

Rev. M H Bixby writes, "I have had occasion to use the Pain Killer very frequently during my residence in Burmah and have found it a very useful medicine. I did not think I could visit the jungles without it.—In case of Colic, Diarrhœa, and Cholera, the Pain Killer gives speedy relief, and for many other ailments I have found it beneficial. It is popular in Burmah, among the natives as well as Europeans. I always carry it with me for my own benefit, and the good of the people where I go.

Sold by all Druggist's.

July 7, 8 1m.

MANHOOD.—IN THE YOUNG AND RISING generation, the vegetative powers of life are strong, but in a few years how often the pallid hue, the lack lustre eye and emaciated form, and the impossibility of application to mental effort, show its baneful influence. It soon becomes evident to the observer that some depressing influence is checking the development of the body. Consumption is talked of, and perhaps the youth is removed from school and sent into the country. This is one of the worst movements. Removed from ordinary diversions of the ever changing scenes of the city, the powers of the body too much enfeebled to give zest to healthful and rural exercise thoughts are turned inwards upon themselves.

If the patient be a female, the approach of the menses is looked for with anxiety, to show her saving power in diffusing the circulation and visiting the cheek with the bloom of health. Alas! increase of appetite has grown by what it fed on; the energies of the system are prostrated, and the whole economy is deranged. The beautiful and wonderful period in which body and mind undergo so fascinating a change from child to woman, is looked for in vain; the parent's heart bleeds in anxiety, and fancies the grave but waiting for its victim.

HELMBOLD'S EXTRACT BUCHU, for Weakness arising from excesses or early indiscretion, attended with the following symptoms: Indisposition to Exertion, Loss of Power, Loss of Memory, Difficulty of Breathing, General Weakness Horror of Disease, Weak Nerves, Trembling, Dreadful Horror of Death, Night Sweats, Cold Feet, Wakefulness Dimness of Vision, Langour, Universal Lassitude of the Muscular System, Often Enormous Appetite with Dyspeptic Symptoms, Hot Hands, Flushing of the Body, Dryness of the Skin, Pallid Countenance and Eruptions on the Face, Pain in the Back, Heaviness of the Eyelids, Frequently Black Spots Flying before the Eyes, with Temporary Suffusion and Loss of Sight, Want of Attention, Great Mobility, Restlessness, with Horror of Society. Nothing is more desirable to such patients than Solitude, and nothing they more dread, for Fear of Themselves; no Repose of Manner, no Earnestness, no Speculation, but a hurried Transition from one question to another.

These symptoms, if allowed to go on—which his Medicine invariably removes—soon follow Loss of Power, Fatuity, and Epileptic Fits, in one of which the patient may expire.

During the Superintendendence of Dr Wilson at the Bloomingdale Asylum, this sad result occurred to two patients; reason had for a time left them, and both died of epilepsy. They were of both sexes, and about twenty years of age.

Who can say that these excesses are not frequently followed by those direful diseases Insanity and Consumption? The records of the Insane Asylums, and the melancholy deaths by Consumption, bear ample witness to the truth of these assertions. In Lunatic Asylums the most melancholy exhibition appears. The countenance is actually sodden and quite destitute—neither Mirth or Grief ever visits it. Should a sound of the voice occur, it is rarely articulate.

"With woeful measures wan Despair
Low sullen sounds their grief beguiled"

Whilst we regret the existence of the above diseases and symptoms, we are prepared to offer an invaluable gift of chemistry for the removal of the consequences. HELMBOLD'S HIGHLY CONCENTRATED FLUID EXTRACT OF BUCHU. There is no tonic like it. It is an anchor of hope to the surgeon and patient, and this is the testimony of all who have used or prescribed it.

Sold by Druggists and Dealers everywhere. Price $1 25 per bottle, or six bottles for $6.50. Delivered to any address. Describe symptoms in all communications.

Special Agents for the North Carolina Press, and General Agents for the Collection of Claims of every description throughout the State.
Office, Goldsboro', N. C
Are authorized Agents for the News.

☞ The Velocipede Tournament, on Friday, was a grand success, and was witnessed by a large number of ladies and gentlemen. Eeight or ten Knights entered the lists, to contend for the honor of crowning the Queen. The successful Knight was Mr. Benj. E. Smith, who selected as his Queen Miss Sallie Jones. The honor of choosing the First Maid of Honor was awarded J. B. Whitaker, Jr., who selected Miss Georgia Street, the Second Maid of Honor, Miss Josephine Burnett, was chosen by J. H. Parker, and the Third Maid of Honor, Miss Emma Street, was chosen by W. T. Granger. The Coronation Ball, at night, was a splendid affair. There was a very large crowd present—so large, in fact, that the spacious dining room was tested beyond its capacity. The evening passed off most pleasantly. Everybody enjoyed themselves which was was well attested by the fact that it was Saturday morning before the ball may be said to have been over.

The address to the Knights, by our talented young townsman, N. P. Clingman, Esq., we hear spoken off in the highest praise, as being a produttion of rare merit. The whole affair was a complete success, and this little episode of pleasure and enjoyment will long be remembered.

HORSES RECOVERED.—We congratulate our townsman, Mr. J. C. Privett, in his good luck in recovering the horses that were stolen from his stables on Thursday night last. They were found in the possession of a farmer living in Richmond county, who had purchased them but a day or two before. One of the thieves has been arrested and is now in the Cumberland county jail, but as that county has a settlement to make with the thief, it may be some time before he is returned to Wayne to be dealt with.

☞ The Newbern *Times* has been enlarged and appears in a new dress, presenting a very neat appearance.

☞ Our young friends, Henry C. and Stephen D. Pool, Jr., have assumed the entire conduct of the Newbern *Journal of Commerce*.—These gentlemen have the brains to give us first rate paper, and by close application they will undoubtedly succeed.

IMMIGRANTS.—The train from the North Friday evening, brought as passengers about sixty Swiss, who were taken in charge by the Executive Committee of the Immigration Association, and distributed in Wilson and Edgecombe counties. Mr. Thomas F. Atkinson, the Agent, who has been in Europe for the last six months returned with them, looking well, and much pleased with his success. The immigrants were a sturdy, hearty looking set, but there were too many women and small children among them, we fear, to make it profitable.

☞ It will be seen by advertisement in another column, that the citizens of Goldsboro' are requested to meet at the Court House Thursday night, to organize a Hook and Ladder Company. The necessity for prompt action in effecting this organization, is too apparent to require any special pleading to bring them out, and we hope all interested in protecting property from the "devouring element," will attend.

THE GRAND DRAWING.—The first Grand Drawing of the N. C. Real and Personal Estate Agency will take place in Tucker's Hall, Raleigh, on the 28th day of August, ensuing. The two small explanatory drawings of this Agency have been entirely satisfactory to the ticket holders.—Those who have been unfortunate are certain that everything was conducted fairly. The names of the Board of Supervisors are a sufficient guaranty of the correctness of the distributions. Tickets for sale at this office.

When is a man not a man? When he's a shaving.

When is a bed not a bed? When it's a little buggy.

☞ Buy of men who sell for cash, if you would buy cheap, and from those who have a reputation for prompt sales. Such are Weil Bros., who have become famous for the constant selling of their goods at the lowest figures, and thus have immense sales, which are profitable, from the inducements they give their customers, and their consequent increase. They never ask more than just the value of the goods in the market, and this is all any one can expect.

A meeting of the directors of the North Carolina Real and Personal Estate Agency, was held in Raleigh on the 1st inst., and John Skinner, Esq., was elected Secretary in place of John C. Hester, resigned.

The grand drawing will certainly take place on the 28th of August next.

DEMOREST'S ILLUSTRATED MONTHLY.—This excellent Magazine now fulfils, as nearly as one Magazine can, all that a lady wants of one, as an assistant in her house, in her wardrobe, and in her care of her children. Every department is complete and perfect in itself, showing the immense amount of labor bestowed upon the whole. The "Ladies' Club" alone gives more sensible advice and information than all the rest of the Magazines put together. $3 per annum, with a premium. Published at 838 Broadway, N. Y.

DEMOREST'S "YOUNG AMERICA."—YOUNG AMERICA is one of the most popular of juvenile publications; there is a freshness to it that we find in no other, and a variety that satisfies even the desire of children for novelty.—Half the good things to be found in other children's periodicals have been derived from this, which seems inexhaustible in its suggestions. One of its very best features is the interest it excites in children, by allowing them to appear as correspondents in its columns. It is well worth the small sum asked for it, of $1.50 per annum, with a premium. Published at 838 Broadway, N. Y.

KOSKOO, the *great Liver Invigorator, Blood Purifier, and Renovator*, prepared by Dr. J J. Lawrence, the celebrated Physician and Chemist, is a SAFE, PLEASANT, and RELIABLE remedy, for the PREVENTION and CURE of all diseases caused by a TORPID LIVER, IMPURE BLOOD, DISORDERS of the KIDNEYS, or DEBILITY of the NERVOUS SYSTEM.

It REGULATES the secretions, ERADICATES all HUMORS or TAINTS, restores lost or wasted nervous power, and at the same time *builds up and imparts tone and vigor to the whole system.*

"John," asked a physician of the apothecaries apprentice, "did Mrs. Green get the medicine I ordered?" "I guess so," replied John, "for I saw crape hanging to the door knob this morning."

A load of flour from new red wheat was brought into the city yesterday from Chatham County and sold to Mr. W. C. Upchurch on Hargett Street, for eight dollars a barrel. The flour from the new wheat is of a very fine quality, and we hope the promises of a full crop throughout the country will be realized, and thus cheap food will be assured.—*Standard.*

The Emperor of Brazil has appointed a "Board of Health" to investigate and decide what proprietary remedies should be admitted into the country and what excluded. After some months session they have reported condemning them all except Dr. J. C. Ayer & Co.'s preparations. Three of those they recommended the Emperor to admit for the benefit of the public health, while they hold the fourth, Cherry Pectoral under advisement for further information respecting one of its ingredients—morphine, which, while so extensively employed and so highly esteemed as a remedy in this country, is scarcely known in that.—Of all the other medicines before them the Imperial commission say, "no one of them merits any favor whatever, or protection from this Government, as they contain nothing new nor any specific virtues not fully known and used by our own physicians." The Imperial Government has accordingly prohibited them all from admission through the custom house, except the remedies of our distinguished countrymen above mentioned—a discrimination by their learned men, very like that to which experience has led the American people.—*Boston Herald.*

An invalid disturbed all the inmates of his boarding house recently by imitating a dog. When asked why he did so, he said he had been ordered by his phycisian to take port wine and bark.

EXCURSION
TO
Newbern, Carolina City, Morehead City, Beaufort, Fort Macon,

And other points of interest on the Atlantic Coast.

TWO DAYS FOR FISHING, SAILING, &C.

Excursions seem to be the order of the day, and on Friday, the 23d of this month, another, destined to be the most pleasant of the season, will take place. For the benefit of citizens along the lines of the North Carolina, Wilmington & Weldon and Atlantic & North Carolina Rail Roads a special train will leave Magnolia at 7 o'clock, A. M., reaching Goldsboro' at 10 o'clock, A. M. The train from the West will arrive about the same hour. Upon the arrival of these trains, the special coaches provided for the excursionists will be attached to the Grand Excursion Train on the A. & N. C. R. R., to leave this point at 10:30 A. M., and reach Morehead City at 3 o'clock, P. M., where the party will remain until 7 o'clock, P. M., on the 24th.

Persons desiring to visit Newbern and other points on the A. & N. C. R. R. are now offered a splendid opportunity.

Fare for the round trip from Magnolia and points between that and Goldsboro' to Morehead City and return only three dollars, Goldsboro' to Morehead and return two dollars, Newbern to Morehead and back one dollar and fifty cents.

The Hotels at Beaufort and Morehead City are making ample arrangements for the accommodation of the excursionists, and will probably entertain the guests on this occasion at one-third less than regular rates. A grand ball will also come off at that time. A splendid band of music will accompany the excursion party.

N. B.—Since the above was in type, the President of the A. & N. C. R. Road has been heard from, and his charges are considered so exorbitant that the gentlemen who had the management of the excursion have abandoned it.

"WESTWARD THE COURSE OF EMPIRE TAKES ITS WAY."—Chicago is now the great distributing post office for all the American mails for China, Japan, the Sandwich Islands and the States of the Pacific slope.

CARDINAL CULLEN, Archbishop of Dublin says that if the House of Lords rejects the Irish Church bill now before it the nation "must have" a "fuller measure of justice." A pretty plain threat from the Cardinal to the Lords. "Love one another" is not Cardinal Cullen's text.

Plants eat as well as animals; both, if stinted in their appropriate food, suffer, and fall far short of a maximum yield and growth.

THE LAST AND BEST VELOCIPEDE.—The "rocking-chair velocipede" is the last, and said to be the best invention in that line. It has been tested with satisfactory results, travels very rapidly, and is as well adapted to ladies as to gentlemen. The new invention is thus described and commented upon, by a judge:

"The new machine is a three-wheeled vehicle, and weighs about 100 pounds. The rocking-chair (in which the driver sits and propels the machine) is placed between the forward and back wheels, and is connected with a rod to the crank in the axle of the hind wheel, which gives it the propelling power as the chair is rocked backward and forward by the occupant. The steering apparatus is attached to the forward wheel, and the whole operation of guiding and running the machine is very simple and almost exertionless. This machine is the only practical one in the velocipede line yet introduced to the public, for it can be operated upon any ordinary road at the speed of at least ten miles an hour, with little or no fatigue to the rider. Last evening a very experienced velocipedist attempted to follow it upon the ordinary bicycle, but was unable to keep up with it, and confessed the superiority of the invention over anything he had ever seen. The rocking-chair velocipede is adapted as well for ladies as for gentlemen, and promises to be something more than a mere plaything for idle boys and sportive men."

SLEEPING ROUND.—The celebrated Don Quin had this faculty. "What sort of a morning is it, John?" "Very wet, sir." "Any mullet in the market?" No, sir." "Then, John, you may call me this time to-morrow."—So saying, he composed himself to sleep, and got rid of the ennui of a dull day.

A MULEOLOGUE,
Or Dissertation on Mules, occasioned by some mysterious allusions to that characteristically stubborn Kreeter, in the columns of the Raleigh Standard.

As the Mule has recently become an object of public interest, and one to which the writer has been induced to pay more than ordinary attention, the result of his deeply profound and scientific investigations of this occidental stadiodrome will, he flatters himself, be highly acceptable to the elite of Newspaperdom generally.

DEFINING OUR TERMS:

MULE, a quadruped, hybrid, sesquihardshell, and the balance equus.

[NOTE.—One has been known gentle enough to carry double. *Authority*—Inglehardt.]

Muleteer—vide Webster.

Mulatto—Erroniously asserted by Ariel to be a hybrid, an opinion alike degrading to the Anglo-Saxon and Nature, as the mulatto propagates, copiously!

Mularchy—The goverance of mules. 'Tis said Inglehardt so completely mastered *a* mule, as to make it carry double.

Muleratus—A lover of Mules.

Mulette—A little mule.

Mulish—Like a mule, stubborn.

Mulify—To bemule.

Mulification—The act of making mules

Mulobates—A mule rider—Inglehardt rode well; boat on em did.

Mulosyne—Mule-man-ship, E. G.—Inglehardt professes it, but hates, 'tis said, to be told of it—a sign of merit.

Mulocratumy—Excelling in the mule-strain art E. G.—Ibid. *ut supra.*

Mulobolist—A breeder of mules.

Mulologue—A discourse on mules.

Mulology—A description of mules.

Mulosophy—A knowledge of mules in general. Whether did knowledge, instinct or necessity impel Inglehardt?

Mulograph—A description of a mule.

Mulogramme—A picture of a mule.

Mulotomy—Bleeding mules.

Muliferous—Producing mules.

Un Mulet—(French,) A he mule.

Une Mule—(French,) a she mule.

Mule wasp—A wasp which pesters mules.

Mulewort—A plant.

Mulomachy—A mule fight.

Mularctomachy—A fight of bears and mules.

Mularia—A stud of mules.

Mularius—A mule-breaker.

Muliped—Having the gait of a mule.

Muliform—Shaped like a mule.

Mulosis—Hard mouthed, mule-mouthed, stubborn.

Mulophonic—Voiced like a mule, braying donkey-like.

There are curious coincidences about mules and certain politicians. Don Kuhatin [illegible] and ignorantly called Don Quixote,) was a noted character who rode on a mule; and if your deeply read correspondent had but half the genius of Cervantes, he could find material for a readable book about this mule wot carried double.

The Don's mule was named Rosinante. The name of Inglehart's celebrated mule has not transpired. Your correspondent would suggest, that as *this* mule carried a couple—*it* might not improperly be yelept Dipplodelphus—(*Obs.* Put two p's in the word, as it will serve to connect in the mind *this* with that other animal which accompanied Rosinante and was named Dapple.)

There are some editors whose patronymic is observably mulish; *e. g.* Mullally. [Quere: May not this word be rather traceable to *mold* a moon calf; vowels, at an early stage in the history of letters being interchangeable?] Mule was, by the Greeks, called *hemionos*, i. e. half ass. The writer is not aware that mules were "raised" by the Hebrews, as the sort of mixture necessary for the successful raising of mules, was forbidden by their law. The Anglo-Saxons were right hefty at raising mules. A goodly number has been raised in the Southern States. Kentucky *was* famous for its mules.—Mules don't chew the cud, but they are said to be remarkably handy with the feet.

And when Abraham and the people beheld the wonderful cures which were produced by this drink, Abraham said, "My children must not suffer; give me thy drink to drink, and I will give it a name."

And so Abraham drank, and said there was nothing like it, even in Sangamon county; that it was bitter to the lips, but good for the stomach; and because there were bitter times in fighting the masters of the plantations, it shall be forevermore called PLANTATION BITTERS; and so it has been.

And the wonderful work which it has performed is witnessed at this day in every town, parish, village and hamlet throughout all the world.

And he said, "Let it be proclaimed throughout the length and breadth of the land, from the valleys and mountain-tops, that all who suffer from fevers, dyspepsia, weakness, loss of appetite, nervous headache, and mental despondency, will find relief through the PLANTATION BITTERS. They add tone to the stomach, and brilliancy to the mind, of which I, O people, am a living example.

MAGNOLIA WATER.—Superior to the best imported German Cologne, and sold at half the price.

The hat was passed round in Rev. Mr. Collyer's Church at Chicago last week, and $70,000 was taken up.

DIED,

In Goldsboro', on Monday night last, after a painful illness, Mr. MOSES JOLLEY.

RALEIGH, N. C.,

With stamp for return postage enclosed.

June 15 6 1m.

CHILD STOLEN.

One Thousand Dollars Reward.

One thousand dollars reward will be given by its bereaved mother for his safe return. Was missing from home on the 6th of October, 1865, and nothing has since been heard direct from him, but information has been received that such a little boy was seen to pass through Oxford, in the possession of a wagoner, and is supposed to be in Granville, Person, Orange, Guilford, Rockingham, N. C., or Halifax county, Va. When taken away he was four years old, a beautiful fair skin, blue-eyed boy. Kind reader, is there such a boy in the family of any wagoner in your neighborhood?

MRS. M. CHANCEY,
Beaufort Co., N. C.

Address
DR. G. W. BLACKNALL,
Weldon, N. C.

A Senator from one of the mountain districts of Tennessee on his arrival at Nashville to take his seat, put up at a first class hotel, when the following occurred on taking his seat at the table:—Senator to servant—"What is your victuals?" Servant—"What will you have, sir, tea or coffee?" Senator—"Tea." Servant—"What kind of tea?" Senator—"Store tea, by ——; do you suppose I come here to drink sassafrax?"

E. N. W.

ICE CREAM AND SODA WATER SALOON.

Goldsboro', March 10, 43.

Goldsborough News.

WEDNESDAY JULY 7, 1869.

Live Mouse in a Child's Stomach.

A very interesting and singular case of a live mouse having obtained lodgment in the stomach of a little child, from which it was thrown up alive, was brought to light yesterday morning, in the Third District.

The facts of the case, which are fully substantiated in every particular are these: A little girl about three years old, named Emily Walhauer, whose parents reside at the corner of Spain and Greatmen streets, Third District, had been complaining for about a week of trouble and pain in the region of the stomach, at times being quite sick and nauseated, and at others exhibiting a most uncontrollable appetite.

The parents becoming alarmed at the unaccountable indisposition of the child, and the singular way in which she was affected, began to give medicine such as is usually given when worms are suspected.

This morning, while suffering from excessive nausea, the child began vomiting, and in the violent retchings which ensued, threw up a live mouse of medium size, which was taken care of, and is now on exhibition at the drug store of Mr. Weilbacher, corner Spain and Greatmen streets. Quite a crowd of persons have visited the drug store this morning to see the mouse, which is alive and doing as well as could be expected.—*N. O. Picayune.*

NORTHERN METHODISM—VOTE ON THE LAY DELEGATION QUESTION.—*New York*, June 24.—The latest returns of the vote on the lay delegation in the Methodist Episcopal Church, as received by mail and telegraph at the office of the *Methodist*, are as follows: Number of churches, 576; churches giving affirmative majorities 367; churches giving negative majorities, 109; whole number of votes, 32,233; for lay delegation, 23,615; against lay delegation, 8,518.

A Man Who Couldn't Live on a Million a Year.

The walls of Paris are at this moment covered with bills announcing the sale of the picture gallery belonging to Count Koucheleff Besborodko. It is said to be the last remnant left—and it belongs to creditors—of the magnificent estate of which he entered into possession just nine years ago. It then was valued at $11,250,000 in gold. He travelled through the East, Southern and Western Europe, in great state. There was no whim he refused to gratify. He chartered a steamship to convey him from one point to another. He had special railway trains for his party. He gave princely entertainments, was lavish of presents. He had a numerous retinue. It was his sister who married Mr. Douglas Hume, the medium. It was he who carried Alex. Dumas to Russia. Nine years ago he was master of $660,000 annual income. It was not enough for him. He could not live on less than $1,200,600 a year—his expenses several years are said to have exceeded this amount of money—and now nothing remains of all that wealth but debt.

COULDN'T GIVE IT UP.—A curious story is told of a well known citizen, who, a short time since, was dangerously ill. Just before he was taken down he had made a successful trade in which quite a sum of money was realized from a neighbor's mistake.—It was true that it was all fair enough but then a casuist would have said that the money should be restored.—But the old merchant wasn't a casuist. He had been taught to look out for himself, and when some of his neighbors ventured to remonstrate with him, he very pointedly advised them to attend to their own business. But when he was sick, his feelings underwent a very radical change. He began to think may be he hadn't acted just right, and as his illness became more intense, and his condition more critical, this suspicion grew into certainty. He finally grew very contrite over his misdeeds and promised that in case his life was spared he would make restitution. He even went so far as to send for a minister to pray with him, and at the sick man's request, the burden of the minister's prayer was that he might be permitted to live and right the wrong he had done.

Whether the prayer was literally answered it would be difficult to say, but, at all events, the sick man got well. But, like a great many others when in health, he forgot the promises he had made when sick, and failed to make the necessary restitution.

The minister, therefore, called on him to know the cause of the delay.

After parrying the question addressed to him as well as he could, he said, at last:

"But what if I get sick again?"

"Then, my brother, you will have the consciousness of having done a good action."

"Yes, but I wouldn't have anything to compromise with; but if I hold on to the money, and I get sick again, I can say to the Lord: *Just let me off this time, and I'll give it back, sure.*

It is useless to say the argument was unanswerable.

A WESTERN editor announced to his patrons, a short time ago, that owing to the pressure of advertisements upon his columns, he should be obliged to suspend the publication of his paper for a few weeks.

How to Make Good Yeast.—A farmers's wife sends the Hearth and Home the following recipe for making good yeast:

"Take eight good-sized potatoes, peel, and boil them in a gallon of water until quite soft; then mash them very fine, and put in two thirds of a cup of salt and one cup of sugar; pour over them the water they were boiled in and let them stand until cool. Then put in some good yeast, and pour all into a good clean jug; let it stand in a warm place twelve hours, then cork up tight, and set in a cold place. It will be ready for use in a day or two, and will keep a month in summer, and any length of time in winter it kept tightly corked."

The same correspondent has found the best way to take starch out of bleached goods to be as follows:

"Make strong soap-suds and dip the goods in it, and hanging them out to dry without wringing. They will be perfectly soft and free from starch, and nice to work either by hand or machine."

Management of Poultry.

Remember that no success can be expected from poultry breeding if their houses are damp, cold and unclean, or badly ventilated; if their food does not approximate to that which they get in a state of nature, viz: A mixture of animal and vegetable feed and clean water. The floor of the poultry house should be cleaned at least once a week. It should be sprinkled with coal ashes, sawdust and peat, or—best of all—charcoal dust. The yard should contain a grass plot, some fine gravel, slackened lime, dry ashes and plenty of pure water.

Trimming Tomato Vines.—A correspondent of the *Highland News* says: "Keep your vines trimmed to not more than three or four strands. A little attention will enable you to do this in a way that will throw the strength of the plant into the fruit.—Fruit-bearing brances never put out immediately over a leaf. Just now, when the tomato is in blossom, this can readily be observed. The branches which put out directly over the leaf or strands of vines, should be pinched out with the thumb and finger, except three or four you wish to train up; you can have the fruit greatly improved in both quality and quantity. Ten plants, occupying about twenty square feet, will in this way yield an abundance for a family of six persons. Your correspondent does not claim to have originated this mode of cultivation; he first saw it tried, and then tried it himself, very much to his satisfaction. Last summer and fall his 'tall tomatoes' were not only his delight, but the wonder of his neighbors.

"You can do anything if you have patience," said an old uncle, who had made a fortune, to his nephew, who had nearly spent one. "Water can be carried in a sieve, if you only wait."

"How long?" asked the petulant spendthrift, who was impatient for the old man's obituary.

"Till it freezes!" was the cold reply.

"I HAVEN'T another word to say, sir—never dispute with fools."—"No," was the reply, "you are very sure to agree with them."

A PARTISAN paper says "it is a mistake that the opposite party plays upon a harp of a thousand strings.—The organ of that party is a *lyre.*"

A PAPER, announcing the wrecking of a vessel, says, "The only passengers were T. B. Nathan, who owned three-fourths of the vessel and the captain's wife."

Eddie [a very smart boy]. "Pa, how many chickens are there on that dish?"

Parent.—"Two, my son."

Eddie.—"No, there are three.—This is one, and that is two—and don't one and two make three?"

Parent.—"Well then, your mother may have one, I'll take the other, and you may have the third for your dinner."

"DID you say that my brother Jim didn't know as much as Smith's yellow dog?" "No, I said Smith's yellow dog knew more than your brother Jim."

A SUBSCRIPTION paper of this style was recently circulated in one of our churches. "We, the undersigned, agree to pay the amount affixed to our names for the purpose of paying the organist and a boy to blow the same."

NEW ADVERTISEMENTS.

CONGLETON'S

VEGETABLE SALVE

The Great Cure for Piles.

TETTER, BURNS, FRESH CUT WOUNDS, OLD SORES, CHAPPED HANDS, LIPS AND FACE, THROAT, BOILS, BRUISES, SHINGLES, CORNS, &C.

THE great cures that this Salve has, and is now making, particularly the astonishing cures of Piles which it has effected, places it beyond question, as the greatest remedy for this disease that has ever been known.

Sufferers from this dreadful and troublesome complaint, and their numbers are counted by thousands, and daily increasing, can confidently rely upon this Salve as the great medicine that will certainly cure them, having never known it to fail in a single instance.

Below we give for the benefit of those suffering from Piles, a few Testimonials from those who have suffered, and been completely cured by the use of Congleton's Vegetable Salve:

TESTIMONIALS;

WILLIAMSTON, MARTIN CO., February 22nd, 1869.

MR. JNO. R. CONGLETON, RALEIGH, N. C.

Dear Sir:—For the last eight or ten years I have been exceedingly troubled with a painful and distressing case of the Piles. Hearing "Congleton's Vegetable Salve" spoken so highly of as the great cure for Piles, I purchased in March, 1868, while in Washington, N. C, one box, and was soon relieved, and by the time I had used the contents of the box, I was perfectly well, and have never had any return since. I consider myself entirely and permanently cured. I give this for the benefit of those who may be troubled with the same disease, believing thereby that I will be benefiting them, and recommending to them a most valuable medicine and worthy of great praise.

I have also used the salve for Sore Throat and find it the best medicine I ever had in my family for that complaint.

Respectfully yours,
JAS H ELLISON.

☞ THE MOST EXTRAORDINARY CURE OF PILES ON RECORD ☜

WAKE COUNTY, N. C, Feb. 14, 1866

MR. CONGLETON—Dear Sir:—It is with pleasure that I humbly certify to the efficacy of your Vegetable Salve, in the cure of Piles. I have been afflicted with said disease some twenty five years, more or less. I have tried various remedies, but found no cure until I was advised by a friend in Raleigh to try your Salve, which I have done, and am at present perfectly well. I have used only one box, which I think, it judiciously used, will cure any case like mine.

I would advise all afflicted with said disease to go and do likewise

Yours respectfully,
HENRY UTLEY.

Price 25 cents a box $2 a dozen. It will be sent to any part of the country, postage paid, on receipt of 30 cts a box.

THE AMERICAN

Rheumatic Liniment

CAUSES a thrill of joy to vibrate through the heart of all those who are suffering from RHEUMATISM, NEURALGIA, HEADACHE, PAIN IN THE SIDE, BACK AND JOINTS, &c

Those who are daily wasting away a life of painful suffering and torture will hail with delight the introduction of this great family medicine in their homes as the great harbinger of ease, and relief from their sufferings and pains, for this is the sure result when this wonderful medicine is used. Limbs and joints that have been stiffened and refused to perform their usual offices, have by the use of "The American Rheumatic Liniment" been restored to their former usefulness.

Secure a bottle at once and be relieved of your pain and suffering.

TESTIMONIALS:

RALEIGH N. C, Jan 16, 1869.

MR CONGLETON:—On the 15th inst. I became troubled with considerable pain and swelling in my right knee. I got a bottle of the "American Rheumatic Liniment" and applied it to my knee, which was greatly relieved and assuaged in ten hours. I then applied it again and by night was so far cured as to forget to apply the remedy; this pain had resisted the application of Liquid Opodeldoc for a week without any perceptible improvement, causing a limp in my walk at sometime and fears of inability to walk at all.

Respectfully,
THOS BAILY,
Book Agent, Dayton N. C.

WAKE COUNTY, N. C., Feb. 24th, 1869.

MR. CONGLETON:—Dear Sir: My little son was for four months suffering with pain in his legs and weakness in his knees so he scarcely could get about and walked with great difficulty. I was fearful that he would lose the use of his legs entirely which gave me a great deal of trouble and anxiety, hearing of the American Rheumatic Liniment, I purchased one bottle and commenced using it, and by the time I had used half of the bottle, my son was greatly relieved and could walk very well, and after using the whole bottle, he is now perfectly well, with many thanks to you and praises for the "American Rheumatic Liniment" I am yours, &c.,

Scrofula, or King's Evil,

is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases; consequently vast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S

Compound Extract of Sarsaparilla,

the most effectual remedy which the medical skill of our times can devise for this everywhere prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only Scrofula, but also those other affections which arise from it, such as ERUPTIVE and SKIN DISEASES, ST. ANTHONY'S FIRE, ROSE, or ERYSIPELAS, PIMPLES, PUSTULES, BLOTCHES, BLAINS and BOILS, TUMORS, TETTER and SALT RHEUM, SCALD HEAD, RINGWORM, RHEUMATISM, SYPHILITIC and MERCURIAL DISEASES, DROPSY, DYSPEPSIA, DEBILITY, and, indeed, ALL COMPLAINTS ARISING FROM VITIATED OR IMPURE BLOOD. The popular belief in "*purity of the blood*" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

AYER'S

Ague Cure,

FOR THE SPEEDY CURE OF

Intermittent Fever, or Fever and Ague, Remittent Fever, Chill Fever, Dumb Ague, Periodical Headache, or Bilious Headache, and Bilious Fevers, indeed for the whole class of diseases originating in biliary derangement, caused by the Malaria of Miasmatic Countries.

We are enabled here to offer the community a remedy which, while it cures the above complaints with certainty, is still perfectly harmless in any quantity. Such a remedy is invaluable in districts where these afflicting disorders prevail. This "CURE" expels the miasmatic poison of FEVER AND AGUE from the system, and prevents the development of the disease, if taken on the first approach of its premonitory symptoms. It is not only the best remedy ever yet discovered for this class of complaints, but also the cheapest. The large quantity we supply for a dollar brings it within the reach of every body; and in bilious districts, where FEVER AND AGUE prevails, every body should have it and use it freely both for cure and protection. A great superiority of this remedy over any other ever discovered for the speedy and certain cure of Intermittents is that it contains no Quinine or mineral, consequently it produces no quinism or other injurious effects whatever upon the constitution. Those cured by it are left as healthy as if they had never had the disease.

Fever and Ague is not alone the consequence of the miasmatic poison. A great variety of disorders arise from its irritation, among which are *Neuralgia, Rheumatism, Gout, Headache, Blindness, Toothache, Earache, Catarrh, Asthma, Palpitation, Painful Affection of the Spleen, Hysterics, Pain in the Bowels, Colic, Paralysis* and *Derangement of the Stomach*, all of which, when originating in this cause, put on the *intermittent type*, or become periodical. This "CURE" expels the poison from the blood, and consequently cures them all alike. It is an invaluable protection to immigrants and persons travelling or temporarily residing in the malarious districts. If taken occasionally or daily while exposed to the infection, that will be excreted from the system, and cannot accumulate in sufficient quantity to ripen into disease. Hence it is even more valuable for protection than cure, and few will ever suffer from Intermittents if they avail themselves of the protection this remedy affords.
